**NILGOON SHAHANI**  
*Jewelry Artist & Designer*

**I am a contemporary jewelry artist working with metal and mixed media. My work translates these influences into modern, wearable pieces.**

**Based in the UAE, I create, teach, and collaborate through exhibitions, workshops, and design projects.**

Within this workshop, silver, gemstones, leather, wood, and brass are transformed through years of dedicated craftsmanship into objects meant to be worn, lived with, and remembered.

## Stage of creation

Every detail starts here. No mass production, just hours of hand-filing, soldering, and refining. It's a slow process, but it's the only way to ensure each piece has its own character.

## Spectrum of Dreams

A bold fusion of color and craftsmanship. This statement set features a vibrant harmony of Tiger's Eye, Amethyst, and Turquoise, meticulously set in handcrafted silver. A celebration of nature's palette and sophisticated minimalism.

## Twisted Silver Cuff

Handcrafted silver cuff made from twisted wire, shaped to create a strong and elegant structure.

This piece combines simplicity with bold form, highlighting texture and movement in the design.

## Ancestral Flight

Where tradition takes wing. This design captures the moment an ancient symbol finds its voice through flight. It reflects a soul that is deeply rooted in history, yet remains free enough to explore the horizons of a new era.

## Ancient Soul

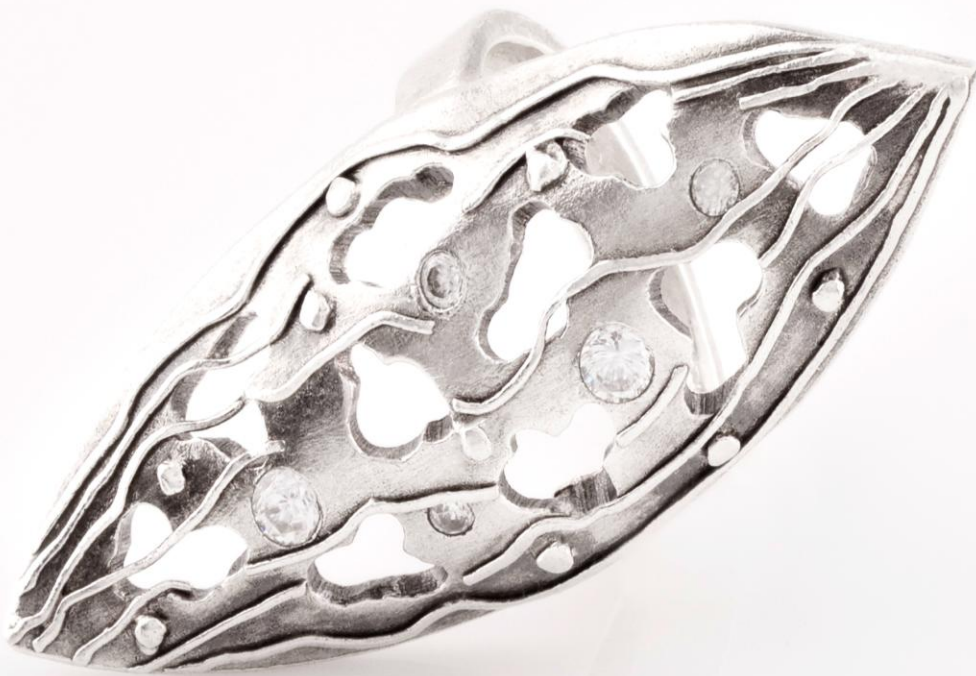

Inspired by artifacts of the past, this design captures the essence of a hidden treasure. It feels as if it was shaped by nature itself, holding a deep purple light that has waited centuries to be discovered and worn.

## Wearable Sculpture

Created in collaboration with a fashion designer, these sculptural floral elements transform footwear into an artistic statement bridging craftsmanship, adornment, and contemporary fashion.

## Celestial & Futuristic

Inspired by the ethereal and powerful trajectory of a celestial body, this ring features a bold, aerodynamic form. The polished silver surface and contrasting textures suggest velocity and cosmic mystery, designed for a modern, statement-making aesthetic.

## Light & Shadow

This ring uses a dark finish to make the silver shapes stand out. The contrast between the black background and the open circles gives it a strong, graphic look that feels very modern and unique.

## Amethyst Bloom

A minimalist open-band ring with a touch of color. The bright purple Amethyst sits perfectly across from a small silver flower. Its adjustable size makes it a perfect gift or a versatile piece for any finger.

## Ancient Echo

A bridge between the past and the present. These two-piece earrings feature intricate patterns that whisper stories of old craftsmanship. The hanging teardrop shape and the glowing center stone create a look of timeless royalty and heritage.

## Violet Serenity

Amethyst is more than just a stone; it is a natural bridge to a calm mind. Known for its soothing violet hue, it is believed to transform stress into peace and clear the path for intuition and dreams.

## Ember

A design that speaks of passions held deep within. It represents a quiet strength on the outside, protecting a powerful, fiery energy that only reveals itself to those who look closely.

## Parallel Spirits

A reflection of a shared journey taken in two different ways. These companions represent the balance between our inner thoughts and our outer expression, showing that even in a pair, every soul has its own unique color and light.

## Eternal Cypress

The cypress is a timeless symbol of freedom and standing tall through the seasons. This piece captures that spirit in silver, representing a beauty that never fades and a strength that remains forever green.

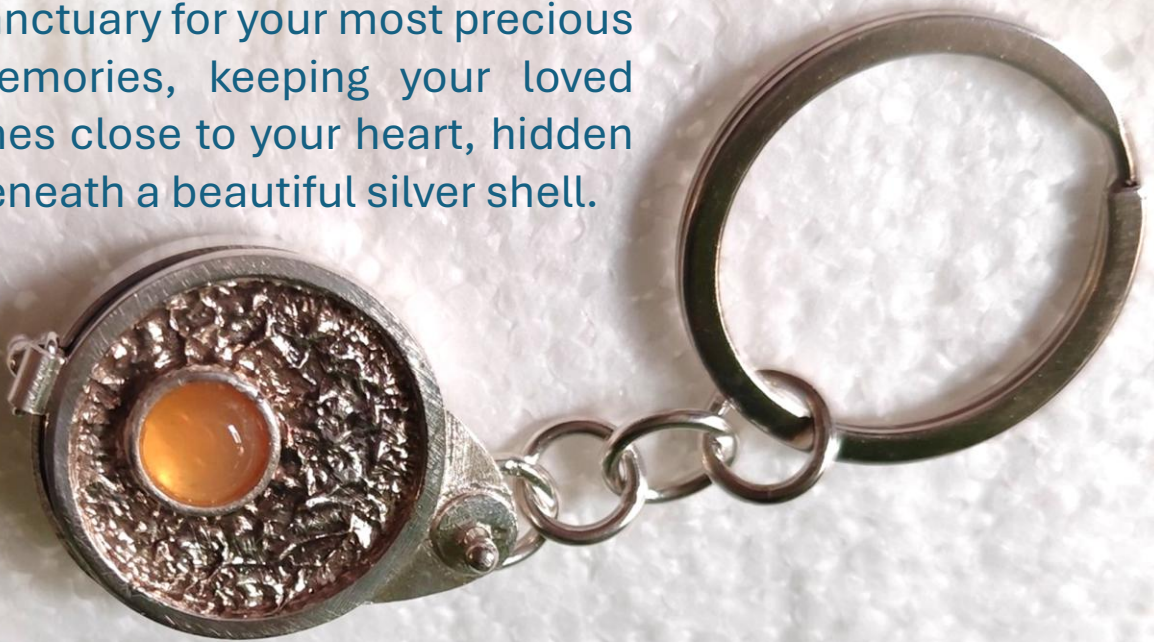

## Silver Blossom

Flowers are nature's most delicate poetry. These earrings capture the fleeting beauty of a bloom in solid silver, creating a timeless accessory that brings a touch of spring to every season.

## Keeper of Memories

Some treasures aren't just made of silver and stone; they are made of moments. This custom locket acts as a private sanctuary for your most precious memories, keeping your loved ones close to your heart, hidden beneath a beautiful silver shell.

## Personal Star

Every star has a story, and every fingerprint is a world of its own. This piece connects human identity to the vast cosmos, reminding us that we are all made of stardust and each of us shines in our own unique way.

## Certified Art Clay Specialist

This certification represents my specialized training in Art Clay Silver (Level 1 & 2). It reflects my dedication to mastering a modern alchemy—where precious metal clay is shaped by hand and transformed through fire into pure silver art.

## My Journey in Art Clay

This certificate marks the years I spent learning and practicing the Art Clay technique. It was a beautiful journey of discovering my own style, and being able to share what I've learned as an instructor has been one of my most rewarding experiences.

## Learning to Lead

Being among inspiring women leaders was a humbling and educational experience. This certificate represents my interest in the broader world of entrepreneurship, learning how to better manage my craft and connect with a community that values both art and business.

## Certified by Technical and Vocational Training Org.

I believe every great art starts with humble learning. Spending 480 hours at the Technical and Vocational Training Organization was a patient journey for me to understand the basics of working with metal. It was a time to practice, to make mistakes, and to slowly learn the language of jewelry making from the masters of this craft.

## International Exhibition FAM Gallery, London

Crossing borders through the language of silver and art. My participation in the FAM Gallery exhibition was a profound experience of connection and success. Seeing my pieces find new homes across the world was the ultimate validation of my craftsmanship and vision.

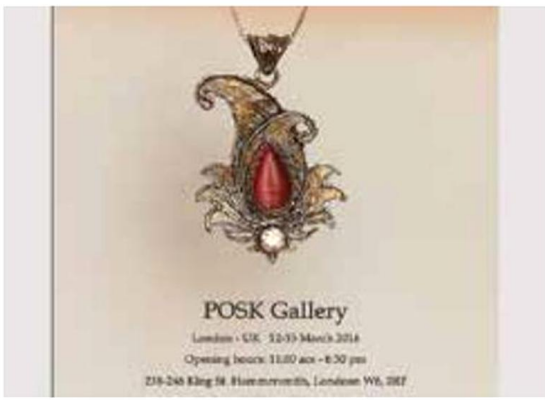

## Self Discovery Exhibition Istanbul

An exhibition that was less about the final piece and more about the journey of finding oneself through silver and fire. Participating in "Self Discovery" at Idil Art Gallery allowed me to see my work through new eyes and connect with an international community that values art as a form of personal growth.

## Presence

- Years of exhibitions, collaborations, and artistic presence across creative and cultural spaces.
- A continuing journey through exhibitions, artistic collaborations, and curated events.
- Presented through years of exhibitions, creative partnerships, and cultural events.
- Shaped through years of exhibitions, collaborations, and public artistic engagement.

## POSK Gallery London

Crossing borders through the language of silver and art. My participation in the FAM Gallery exhibition was a profound experience of connection and success. Seeing my pieces find new homes across the world was the ultimate validation of my craftsmanship and vision.

## Fidar Gallery

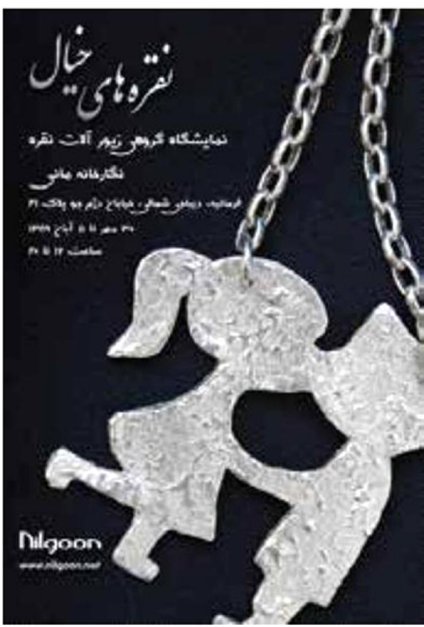

A solo showcase of my artistic evolution. My exhibition at Fidar Gallery was a milestone, allowing me to present the full depth of my vision. Curating this personal collection and sharing the stories behind each handcrafted piece created a unique and unforgettable connection with every visitor."

## Dandelion & Wishes

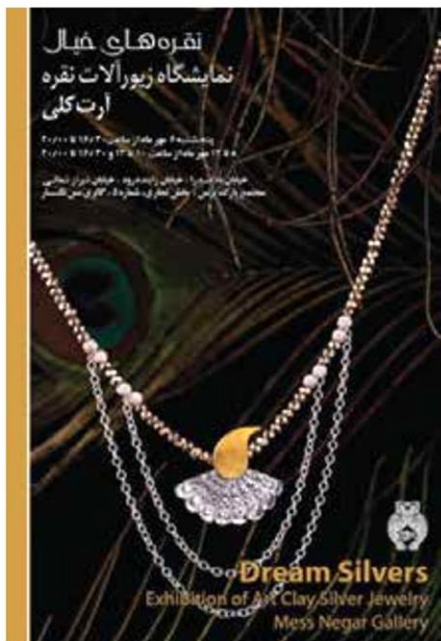

An exploration of texture and imagination beyond jewelry. This exhibition featured my resin-based wall installations, inspired by the fleeting beauty of nature. A series dedicated to capturing hope and light through mixed media and decorative art.

## Silver Of Imagination Vol. |

The first chapter of a creative journey. This debut exhibition explored the fluid boundaries between dreams and reality, where silver was shaped into the very first forms of my imagination. It was the moment my visions took their first solid breath.

## Silver Of Imagination Vol. ||

Continuing the story with deeper textures and bolder designs. In this second edition, the imagination grew more complex, focusing on the intricate details that light and shadow create on hand-carved silver. A step further into the wearable dream.

## Peace & Adornment

Peace & Adornment: A dialogue between harmony and art. Using the innovative Art Clay technique, I crafted pieces that embody the softness of peace and the strength of silver. This collection was a reflection on how jewelry can be a silent messenger of tranquility and a bridge between cultures

## Silver Of Imagination Vol. |||

The culmination of a vision. This final showcase of the series celebrated the absolute freedom of handcrafted art. Here, silver became a mirror for the soul, representing the peak of craftsmanship and the final transformation of abstract thoughts into timeless jewelry.

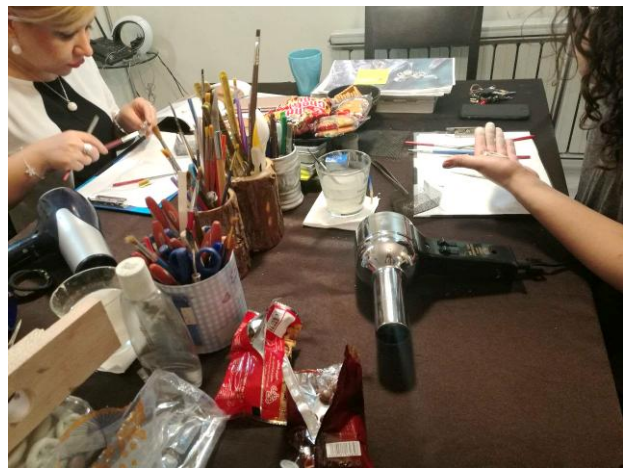

## Decorative Arts & Installations

Beyond the Body: An exploration of decorative forms. This exhibition moved art from the wearer to the space, featuring unique installations made of papier-mâché, metal, and glass. A study of textures and materials, where fragile paper meets the strength of steel to create timeless pieces for the modern interior.

# Instructor & Mentor

**Over 15 years of certifying jewelry artisans worldwide in traditional silversmithing and modern Art Clay Silver.**

Graduating from our programs means entering a global ecosystem. Students certified under our technical direction have successfully translated their education into independent, thriving businesses. Today, our alumni network spans multiple continents, with graduates running their own boutique art shops, jewelry brands, and teaching studios worldwide. We maintain an active, interconnected community where alumni share technical insights, collaborate on international exhibitions, and source professional-grade materials. When you certify with us, you are not just taking a class—you are joining a global guild of professional artisans.
